

Kia Plant in West Point to Open New Production Line

Kia Motors announced plans to expand production at Kia Motors Manufacturing Georgia, Inc. (KMMG) to include the midsize Kia Optima sedan. The Optima's production line will join that of the already manufactured Kia Sorento CUV.

Not only is Kia Motors providing more jobs for the state of Georgia, but they helping to grow the US economy as a whole. Their workers dedication to excellence and strong work ethic is a major reason Kia has decided to expand the West Point factory.

Kia Motors is currently accepting applications for employment. To apply, visit <https://www.kiajobsingorgia.com/>.
