

Looking for people with lighting and electrical Experience

An environmental firm in Georgia is in immediate need of **lighting retrofitters**. Experience in this field is a definite asset. Experience working with electrical jobs and lights is a requirement. Work will take place at job sites around the state. A valid driver's license and vehicle are definite assets. Experience in project management could lead to a higher salary after a probationary period. Forward a resume and three references to Ruth at ruthink@comcast.net

A local environmental firm has need of **people with an unrestricted GA electrical license** to perform on job sites around the state, mostly in the ATL area but also other regions. The potential exists for both full time work and a higher salary after a probationary period with the company. Familiarity with GEFA and ARRA job sites is a definite asset, as is a vehicle. Send resumes to Ruth, with 3 references, at ruthink@comcast.net
