

## **Company Description**

Southern Regional, a not-for-profit organization dedicated to improving the health and well-being of the surrounding community, blends a profound passion for healing with the use of advanced medical technology to deliver superior care to our patients. This unique combination makes Southern Regional stand apart in the south Atlanta area and allows us to better serve our community. One of the components of our organization is Southern Regional Medical Center (SRMC) - a full-service, 331-bed hospital in Riverdale, Ga. It was the first to offer angioplasty and round-the-clock catheterization on the south side of Atlanta and is recognized as an accredited Chest Pain Center. In addition, SRMC boasts an Advanced Primary Stroke Center, the Georgia Orthopedic Institute, minimally-invasive, robotic surgeries with The da Vinci Surgical System® and a variety of rehabilitation services. Southern Regional also is home to The Women's Life Center for expectant mothers, which claims the area's top NICU and offers a full range of services from high-risk deliveries to routine mammograms. A second campus at Spivey Station in Jonesboro, Ga. specializes in OB/GYN, breast care, primary care and internal medicine, neurology, hematology and oncology. At Southern Regional, we are committed to excellent patient care and customer satisfaction. Our staff answered a call to positively impact the surrounding community by improving the health, well-being and quality of life for the patients we treat.
