

## **State Farm**

Brian Brakefield is a great customer of mine and I worked with his wife thru the Clayton Chamber. He has a State Farm office in Hampton.

He's looking to fill two positions.

The first is part time and will be focused on telephone calls and light office work.

The second position is full time but needs to be a self motivated young professional that Brian can mentor to eventually have their own State Farm office.

Please let me know if you have anyone that might be interested.
